Building a Species List & Wizard

Some text snippet explaining what to do here. Build your species list down the left column and common features across the top row. Create Feature Groups to categorize similar features.

The image shows a web application for managing animal features. It consists of three main parts: a table of animals, a modal for editing an animal, and a modal for adding a feature group.

Animal List Table:

Animal List	Long
Gorilla	<input checked="" type="checkbox"/>
Chimpanzee	<input type="checkbox"/>
Human	<input type="checkbox"/>
Cheetah	<input checked="" type="checkbox"/>
Squirell	<input type="checkbox"/>
Dolphine	<input type="checkbox"/>
Shark	<input type="checkbox"/>
Snail	<input type="checkbox"/>
Chipmunk	<input type="checkbox"/>
Bird	<input type="checkbox"/>
Elephant	<input type="checkbox"/>
Deer	<input type="checkbox"/>
Tiger	<input type="checkbox"/>
Cat	<input type="checkbox"/>
Leopard	<input type="checkbox"/>
Parrot	<input type="checkbox"/>
Catepillar	<input type="checkbox"/>
Cricket	<input type="checkbox"/>
Ape	<input type="checkbox"/>
Hobbit	<input type="checkbox"/>
+ Add an animal	<input type="checkbox"/>

Edit Animal Modal (Chimpanzee):

The modal shows the animal's name, a description, and a list of features. The description is: "Praesent id egestas diam, sit amet finibus nulla. Curabitur sit amet risus sit amet est efficitur consequat. Nam quis dui in orci eleifend ultrices nec id ante. Donec lobortis fermentum neque ut dignissim. Pellentesque id viverra enim. Sed viverra mi vel nibh varius, id tempor odio feugiat. Quisque blandit volutpat neque quis vulputate." The features are: Long, Rotund, and Add a feature group. The modal also includes a "Save" button and navigation arrows.

Add a Feature Group Modal:

The modal shows a table with columns for "Long", "Rotund", and "Add a feature group". The "Add a feature group" column has a "+ Add a feature" button. The table contains several rows of checkboxes.
